TOWN WARRANT

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Deerfield in the County of Rockingham in said State, qualified to vote in Town Affairs:

[L. S.]

You are hereby notified to meet at Town Hall in said Deerfield on Tuesday, the eleventh day of March, next, at nine of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.
2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same.
3. To see if the Town will raise and appropriate the sum of \$803.95 for Class V Highways, the State to contribute \$3,215.79.
4. To see if the Town will vote to instruct the Selectmen to hire money in anticipation of taxes.
5. To see if the Town will vote to discontinue the Old Road back of the Blue Bowl (so called.)
6. To transact any other business that may be legally brought before this meeting.

Given under our hands and seal, this 1st day of February
in the year of our Lord nineteen hundred and forty-seven.

CARL M. FOGG,
ROBERT B. SANBORN,
JOSEPH W. TWOMBLY,
Selectmen of Deerfield

A true copy of Warrant—Attest:

CARL M. FOGG,
ROBERT B. SANBORN,
JOSEPH M. TWOMBLY,
Selectmen of Deerfield

REPORT OF THE FOREST FIRE WARDEN

**HELP YOUR FOREST FIRE WARDEN PREVENT
FIRES — IT PAYS!**

Prevention is one of the most important phases of all fire effort. This is particularly true of forest fire control work. Preventing forest fires preserves valuable forest growth and other property, conserves man power and permits their use in productive channels, saves taxpayers' money and conserves fire fighting equipment.

The prevention of forest fires is the most important and difficult part of the work of your forest fire warden who heads a local organization set up primarily for the security of your community's forest property. Appointed by the State Forester, upon recommendation of the Selectmen, he is charged by law with the responsibility of local administration of forest fire laws, fire prevention and suppression. In his work he is aided by deputy forest fire wardens who, in emergency, may assume his power and authority. The warden is guided in his work by instructions received from the State Forester and by the District Fire Chief who represents the State Forester.

The importance and value of the work of the forest fire warden and his deputies is, perhaps, best appreciated during hazardous periods when fire danger is greatest. The public, however, looks to him at all times for speedy and economical suppression of going fires.

To properly fulfill his mission, the warden needs the generous and understanding cooperation of the public at large. He attempts to secure this cooperation by the posting of caution notices, news items and by word of mouth, always carefully explaining the necessity of restrictions imposed. In the matter of giving cooperation, however, the public often fails. The record shows that an average of 7,300 acres of woodland are burned over by the forest fires in New Hampshire each year. Analysis of fire causes reveal the fact

that more than 98 percent of all forest fires are, consistently, the result of human carelessness and are preventable.

The careless smoker fails to properly extinguish his cigar, cigarette or pipe ashes or thoughtlessly throws them from the car window; the debris burner fails or refuses to consult the warden, as the law requires when the ground is not covered with snow, before attempting to burn; campers fail to properly extinguish their fires or frequently build fires when conditions are unfavorable.

The elimination of human causes from the forest fire problem is the answer. This is not as difficult of accomplishment as it might appear at first glance. Let each one who reads this—

1. Use ordinary common sense with fire in and near woodland.
2. Comply with requirements on the use of fire in and near woodland and when the ground is not covered with snow, secure written permission to burn from the forest fire warden.
3. Be careful when smoking in or near woodlands. Don't throw lighted material from moving vehicles.
4. Cooperate with and assist the warden and urge others to do so.
5. **HELP YOUR FOREST FIRE WARDEN PREVENT FIRES** — his efforts are only as effective as is the cooperation you give him!

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board of Deerfield:

It is a pleasure to present my eighteenth annual report, and to emphasize the progress made by your community towards the goal of a modern centralized school. The need is great. Public interest is keen. Ample land has been obtained. The widow of the late George White has made available for a period, limited to five years, a sum of money sufficient to construct the basement of a modern building. We must anticipate that an "enabling act" by the state legislature will be necessary to raise and appropriate the district's share of funds to complete and equip a school plant that will accommodate one hundred or more children. With the return of adequate building materials and available labor, strong forces are now working for the enactment of federal legislation to aid in financing such building construction and equipment. This may reduce in some measure Deerfield's local appropriation.

For the present year Deerfield is maintaining two of the 196 one-room schools now open in this state. In your local schools seventy-seven pupils are in attendance. Nine children are transported to the Moore School in Candia and two attend schools in Epsom.

Sixteen secondary school pupils are accommodated at Coe-Brown Academy and in the high schools of Concord, Manchester and Raymond.

Mr. Clarence P. Amadon, who was elected teacher of the Center School in February of 1946, has been retained in the same school for the present year.

In September Miss Bertha A. Royce of Goffstown, and formerly a teacher in the schools of Barnstead and Pem-

broke, was elected to succeed Mrs. Eliza L. Brown, who is now teaching in Chester.

The former supervisor, Mrs. Mabel E. Reed of Manchester, is teaching Music in the schools of Deerfield, Candia, Hooksett, and Pembroke.

The pupils' attendance record in the Center School is a credit to any community. The records of both the Center and the Parade Schools are among the highest in the Union. The average achievement in the three R's, demonstrated by the primary and intermediate grades in their Metropolitan Achievement Tests, compares favorably with the achievement of several thousand children in graded schools.

Grades	III	IV	V
<i>Standard Score Anticipated:</i>	3-3	4-3	5-3
Deerfield's Averages in 1944:	3-4	4-1	5-6
Deerfield's Averages in 1945:	3-9	4-4	5-1
Deerfield's Averages in 1946:	3-3	4-5	5-4

Following recent investigation of the relation between handwriting and proficiency in acquiring reading skills, a modified form of manuscript basic handwriting has been placed in the First Grade. This method is intended eventually to extend through the second and third grades. In the intermediate and upper grades Zaner-Bloser Correlated Handwriting has replaced the Houston method for which materials are no longer available.

Through an excellent film library now maintained by New Hampshire University and with the Bell and Howell SOUND-ON-FILM Projector, purchased by Deerfield in cooperation with four other districts in the Union, visual education becomes a part of the classroom procedure in teaching geography, history, health, music, safety, and science.

The annual spelling contest, that was discontinued by restricted transportation during the war, has been restored this year. This is open to all pupils in grades three through

eight. A silver trophy cup is held for a year by the district whose team of three members has the highest total score. Any district, having won the contest three times, holds the cup permanently.

Through the efforts of Mr. Amadon and his pupils an upright piano now replaces the square piano that was no longer of service to the school.

Needed by the Music Supervisor is a portable victrola for use in music appreciation. At present your supervisor is obliged to borrow a portable Victrola from a neighboring district. This year no provision was made in the annual budget for the purchase of new equipment.

During the last year eighty-three pupils have been examined by your School Nurse, Margaret E. Cronin, compared with a total of only sixty-six pupils the previous year. All of the eighty-three have been vaccinated, and twenty-two were given the T. B. Patch Test. Four children were found to be more than ten per cent underweight. Three of these cases have been corrected. Out of three cases of defective vision only one has been corrected. Fifty-nine of the children showed dental defects. In the absence of a local clinic only four of these dental cases were corrected.

Communicable diseases included two cases of Chicken Pox, twenty-one cases of Whooping Cough, and three cases of Pediculosis. The number of Nurse's visits were forty to the schools and fifty-five to the homes.

The estimated budget for the coming year calls for approximately \$2,000 more than the appropriation made by the district in 1946. Of this increase \$1,000 is absorbed in transportation. The remainder appears under superintendent's and teachers' salaries, administration, elementary school tuition, insurance and other fixed charges.

The enactment of House Bill No. 12, now in the legislature, or similar legislative bills in prospect, may slightly reduce the local share of school costs. However, it is very improbable that these bills will receive final action by the legislature before the date of the annual district meeting.

To open a third school would cost at least \$2,000. Against this expense is a saving of \$216 tuition and \$400 transportation. The proposed distribution of additional state aid as set forth by the State Board of Education makes particular provision for the maintenance of standard one-room schools by specifying the flat sum of \$1800 to each school. But here again we face the shortage of qualified teachers, essential to the maintenance of standard schools. Quoting a prominent educator, "It isn't merely the matter of salaries, New Hampshire simply hasn't the teachers."

In conclusion, I wish to commend most heartily the services being rendered by the teachers to your schools and community. The two school buildings, now in use, compare favorably with the average one-room schools in New Hampshire. I consider the instruction to be above the average. Yet the most helpful sign in your community is a growing dissatisfaction with out-dated facilities and a definite plan to meet the educational needs of a new day.

Respectfully submitted,

GEORGE H. HARMON,
Superintendent of Schools
